NEW CYCLERS' LEAGUE.

The Kulghts of the Wheel is the Result of Disaffection

IN THE LEAGUE OF WHEELMEN.

West Virginians Said to Be in the New Move-The Base Ball Games Yesterday - Pittsburgh Continues Her Winning Spurt-Latest News From the Race Tracks-Other News of Sport.

"The Michigan equabble" has become a well known term among members of the cyclers' great organization, the League of American Wheelmon within the past elx months, and all are familiar with the trial of the chief consul and secretary-treasurer of the division, which ended in their expulsion. Bresler threatened to be heard from later on to the league's disadvantage. Well, he has been heard from. Cyclers all over the country have received circular let-ters from Detroit calling attention to a new organization...The Knights of the Wheel. Though Bresler's name does

Wheel. Though Bresler's name does not appear on the surface, his is the master mind that is responsible for the new order, which aspires to become a rival of the learne.

Circular letters from the officers of the knights have been received by West Virginia wheelmen, but in this section the L. A. W. fills the bill and the envy and malice of the Michiganders will find little sympathy in West Virginia.

Among coming cycle racing events in the tri-state radius is the meet of the Elwood City wheelmen on July 6 and 7, for which entry blanks have been received here and can be had at Stamp's. Prominent among the Elwood City wheelmen is Harry Northwood, a veteran, formerly of this city, who is particularly anxious that some of the Wheeling boys go up and carry off a few of the prizes. In a letter to a local friend he says:

"We are just in shipp our road track,
"We are just in shipp our road track,

friend he says:

"We are just finishing our read track, which is a perfect circle, hard clay read, one mile circumference. To come to our meet would be a splendid outing for some of my Wheeling friends, and the prizes are tirst clays. We expect 10,000 people here and if none of the Wheeling boys turn up I shall be disappointed."

The W. A. W. committees are holding meetings almost daily, making arrange-ments for the coming national circuit races in September. The cycle track at Mozart Park is completed and will be in good shape for the race there on Grocers' day. It is a one-third mile track.

Last ovening but two entries had been received by Secretary Strobel for the bicycle racent the Grocers' picnic, Thurs-lay, Howard Smith and Howard Schaef-

fer. The cyclers' track project seems to have fled its second death, and a second reasurrection seems improvable. The wheelmen will therefore have to be content in training on the pike.

Notwithstanding the heat many tourthe transparent the city over the National pike. In places the pike is in the worst condition known for years. The stretch in West Virginia is as good as any.

A committee of miners called upon General Wylio to-day to find out what the troops were for. The general told them that he would not answer nor ask questions from an official standpoint, as all his official conferences must be with the sheriff of the county. He told as all his ollicial conferences must be with the sheriff of the county. He told the committee that his duty was to protect property. He said that he was in sympathy with the miners as long as they kept within the bounds of the law. He denounced company stores, and said that where it was known that a company had any interest in a store the law should be enforced. He said he endorsed the United Mine Workers, that he had worked around mines himself and know that that union was a help to the men. He spoke arougly against our present immigration laws and advised the miners to use their association in making an attack upon our legislative bodies and urge them to pars laws to compel companies to pay cash for the later when the sink of the state of the said that the said urge them to pars laws to compel companies to pay cash for the later when the said. sectation in making an attack upon our legislative bodies and urge them to pars laws to compel companies to pay eash for their labor and give them the right to spend it wherever they please. One of the grievances the committee had was that the soldier was put to running one of the pumps. The general told them that his private was put there because the miners had shut the water off from the camp and he would have water even if he had to shoot men to get it. The general was told that the pump was connected with machinery that pumped water out of the mines and they looked upon that as working for the company. General Wylle said that his soldiers were not here to work for the company, and that he would look the matter up.
